Milk Processor production, quality, and collection data - Data Access only

Fonterra (Fencepost)

Open Country Dairy

Tick one as appropriate:

Client Authorisation:

Agreement

- I hereby authorise the Data Providers listed above to release my data/information including historic data to Infovet.
- I authorise Infovet to collect, use and disclose to LIC MINDA or CRV (as applicable) individual cow data attributable to me and my farm(s) (including, for example, pregnancy test data and cow health data) provided by me directly or indirectly.
- I acknowledge that my vet practice (named above) and its employees and contractors will be provided with access to my data/information to help me manage and make best use of my data/information.
- I acknowledge that my data/information may be aggregated anonymously and may be provided to third parties for benchmarking and research purposes, for example yearly mastitis data compared locally, regionally and nationally. The identity of me and my farm(s) will always be protected, but information may be attributable to individual cows.
- To the fullest extent allowed by law, the Data Providers, Infovet and its officers, employees, advisors and agents expressly disclaim any liability which is based on, or arises out of, the data/information accessed using the Infovet Software or data/information supplied to you from Infovet whether directly or indirectly (for example, pregnancy test uploads).
- I agree to notify the Data Providers listed above, and my vet clinic(s), if I no longer want my data/information released to Infovet.
- I acknowledge that my data/information provided to Infovet by the Data Providers will not be returned to me by Infovet or a Data Provider.
